

Pattol Albadry
CST8117 Project 1:

Simple Client Website with Constraints
Project Pitch
Small business of cafe

Client:

A family of five people. They want to create a website about their own cafe. The website will include menu, contact, location, time opening hours, Special event, pickup and delivery.

As a family team:

- The father works at the bakery
- The mother makes coffee.
- The sister works at the cashier
- The older brother works as a hospitality
- The youngest brother delivering the food and drinks

five.family@gmail.com

613-826-family

It has:

1. Types of Cold coffee
2. Type of Hot coffee
3. Small bakery (cake, cupcake,...)
4. Newest product machine
5. Special event (meeting room, birthday's room)

Style:

Classic and vintage and old fashion dine in style .

This kind of cafe will give the impression of relaxation and the taste of the beverages will give them enjoyment.

Colore:

black/Brown grades

Front style:

- Times New Roman

- Times New Roman is a Transitional serif typeface designed by Stanley Morison and Victor Lardent. It was released through Monotype in 1931. The design was based off Plantin, but with a renewed focus on legibility and economy to better meet the needs of newspaper typography.

<https://www.typewolf.com/site-of-the-day/fonts/times-new-roman#:~:text=Times%20New%20Roman%20is%20a,the%20needs%20of%20newspaper%20typograp hy.>

- bookman old style font/ old style Antique

- The ancestor of Bookman Old Style is Miller & Richard's "Old Style", cut by Alexander Phemister. Often described as "modernised old style", it is a redesign of "true old-style" serif faces from the eighteenth century such as Caslon.

[https://en.wikipedia.org/wiki/Bookman_\(typeface\)](https://en.wikipedia.org/wiki/Bookman_(typeface))

Website target:

The website will target traditional monitor resolutions of 1024X768 and greater.

Examples:

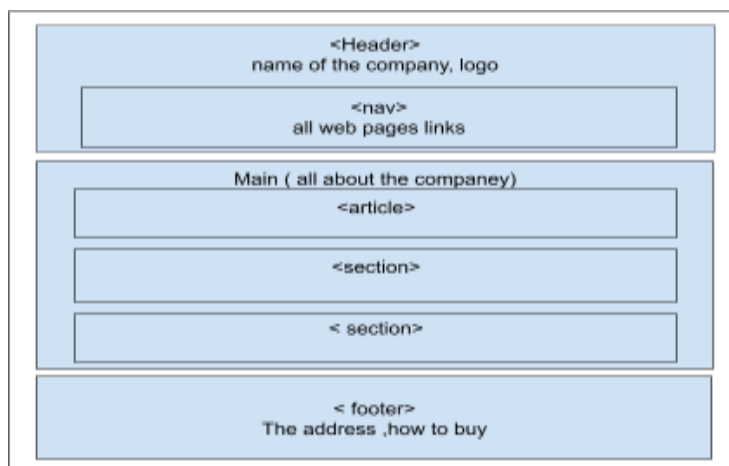

<https://elmcoffeeroasters.com/>

<https://www.cafebritt.com/home>

<https://joeyrestaurants.com/location/joey-lansdowne>

Semantic Design Guide:

This if for the first website

Also I will do this same semantic design guide for each web page.

The Website Map

First (main) web:

- Introduction about the company
- Opening hours
- Location
- Contact
- How to buy

2nd web :

- Menu

3rd web:

Special events

1. Meeting room
2. Birthday's room

4th web:

- Order online

5th web:

- Register Online

6th web:

- Volunter's
- Job's
